If the abstract is accepted, the author must commit to attending the SCGA Annual Meeting to present the poster. You may submit abstracts of completed work, work in progress or work presented at a local or regional level. The primary author is responsible for obtaining written consent from all authors and appropriate institutions prior to submitting an abstract.

Abstracts must be free of commercial influence. In addition they may not imply an endorsement of any commercial product or service.

Title, typed in all caps, should be brief and clearly state the content of the poster. Presenting authors must list their name first and should then include names of the co-authors and the involved institutions, city and state.

Please note: Your abstract should be organized into the below sub-sections depending upon the type of your submitted work.

The maximum word limit is 400 words, and you should include a word document version of your abstract, so that it can be included in the annual SCGA research booklet:
